

Based on current trends, FDA anticipates that 11 petitions will be submitted each year. The time required to prepare and submit a reclassification petition, including the time needed to assemble supporting data, averages 500 hours per petition. This average is based upon estimates by FDA administrative and technical staff who are familiar with the requirements for submission of a reclassification petition, have consulted and advised manufacturers on these requirements, and have reviewed the documentation submitted.

In addition, FDA is correcting a document that appeared in the **Federal Register** of Friday, September 17, 1999 (64 FR 50516). On page 50517, in Table 1 of the document, "860.133" is corrected to read "860.123".
